

What is leadership and what are the characteristics of effective leadership in research and higher education?

- Hear from an international line up of research leaders
- Discover their stories of leadership and participate in a panel discussion
- Network and explore opportunities, issues and challenges of leadership in a global context.

Each speaker will tell a 'story' from their leadership journey, or their experience of leadership.

We will ask that they frame their experience in this way and limit slides to three for a beginning, middle and end to the story.

10am- 10.30am Coffee & Registration

10.30 – 10.40	Welcome to the ARMA/INORMS Global Leadership Summit: Steph Bales to Introduce Ehsan Mashood as Conference Chair.

16.20 – 17.30	Networking

Our speakers:

Panel Chair:

Ehsan Masood, Knight Science Journalism Fellow, Massachusetts Institute of Technology.

Ehsan is a science writer, journalist and broadcaster and was previously editor of Research Professional News. He worked for the journal Nature as a writer and as acting chief

commissioning editor. He has also worked as Opinion Editor of New Scientist and communications director at LEAD International.

Ehsan has also written for Prospect magazine and openDemocracy.net, as well as The Times, The Guardian and Le Monde. He is a former director of communications of Leadership for Environment and Development and also advises the British Council on science and on cultural relations. Ehsan was a regular contributor to Home Planet, an environmental affairs programme on BBC Radio 4 in the UK. He is chair of trustees of The Muslim Institute a UK-based charity that supports critical thinking among British Muslims.

Norifumi Miyokawa is a Senior Research Administrator at Hiroshima University and has been involved in the university's efforts to internationalize its research activities since 2014. His duties include administrative supervision of the university's International Science Communication Fellowship Program and Writing Center, and support for international conferences organized by faculty members. He is also engaged in the development of institutional linkages with foreign universities for international research collaborations. As a scholar, he holds the post of Visiting Fellow for Hiroshima University's Research Institute of Higher Education. Before joining Hiroshima University, he enjoyed working for the Education Section of the Australian Embassy in Tokyo and the University Office of Global Program at the Pennsylvania State University in the United States. He has a strong interest in the field of international education, particularly transnational academic mobility. He pursued higher learning in Japan, Australia, the UK, and Singapore, and obtained a Ph.D. in Higher Education Administration at the Pennsylvania State University.

Christina Miller, Director, UK Research Office ([UKRO](#)). Christina has over ten years' experience working in Brussels and providing specialist advice and guidance to researchers and funding managers on their engagement in the EU programmes and evolving policies. Christina has a particular interest in demystifying the EU funding and policy landscape.

UKRO is European office of the UK Research Councils. UKRO delivers subscription-based advisory services for research organisations and provides National Contact Point services on behalf of the UK Government.
