

ARMA Training and Development Programme

We support and encourage professional development by providing a comprehensive range of online and face to face webinars and workshops, available at discounted prices for members. These events offer excellent opportunities for the exchange of the latest information, knowledge, expertise and good practice between members.

This programme provides an overview of our planned sessions for the year ahead (up to April 2025) to help support members with their own professional development plans. We have indicated which stage of career are most suitable for each event but would encourage members to consult the specific event details to ensure it is suitable for them. All of our learning provision is tailored to the research management and administration profession and presented by experts and specialists in their fields, many of whom are ARMA members.

We have ensured that there is a balance of online and face to face provision to ensure that our events are as accessible as possible.

If you would like to be added to a waiting list to be the first to hear when these events are available for booking please email events@arma.ac.uk
